ABOUT US

AIMM Philadelphia Installations Inc. is a furnishings installation, millwork, and warehousing service company dedicated to providing its clients with cost effective services, resources, and solutions of the highest quality. Established in 1983, API has serviced a diverse and expansive client base that traverses a great number of industries. We have vast experience with all systems and furniture manufacturers, a skilled and multifaceted team of craftsmen, and familiarity with a wide range of industries and facility environments. We are confident that AIMM Philadelphia Installations is the right choice for all of your commercial interior needs.

OUR MISSION

To become an integrated and reliable resource partner to our clients while providing personalized service solutions that address their needs. API is there for its' clients long after the project has been completed providing the resources to support their daily operational service, repair, and maintenance activities. We place a high value on being an integrated member of our clients' facilities and project teams and on continuously supporting our clients' current and future facilities and furniture objectives. API strives to fully understand its' clients' operations and long term goals and then find solutions best suited to meeting those needs.

FURNITURE INSTALLATION

The best way to protect your contract furniture investment is to work with a professional and experienced installation team.

We begin working with you weeks, even months, ahead of time to precisely coordinate when, where, and how your product and furniture installation will take place.

API's goal is to complete your furniture installation with efficiency, speed and professionalism to assure that there will be no downtime for your personnel.

Our services include, but are not limited to, the receiving, staging, layout, and installation of various products. In addition, we can arrange for product storage if there is any postponement

of site availability due to construction delays. We will also remove any packing materials and leave the area in move-in condition. Following the initial installation, we'll be there whenever the need arises.

We have OSHA trained, fully-insured and bondable professionals to install all types of contract furniture – we are considered the "systems experts." Protect your investment, whether it's –

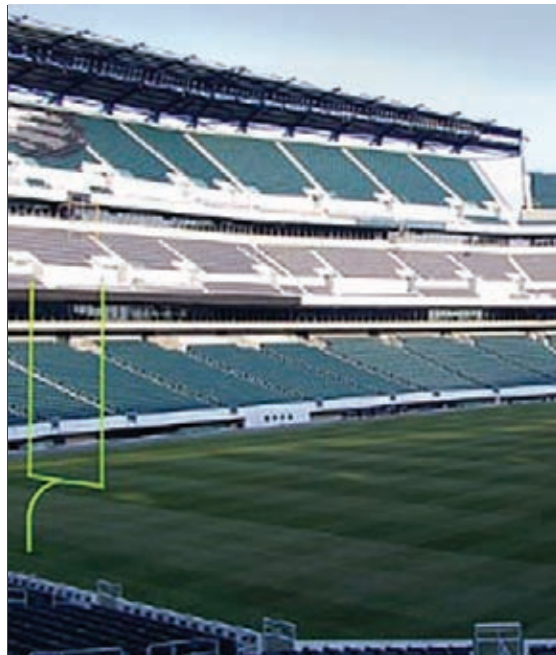

- Panel Systems
- High Density Mobile Filing
- Free-standing Case Goods
- Demountable Partition Walls
- High-tech Computer Stations

Talk to the professionals at API about your next furniture installation. It will be worth the phone call.

RECONFIGURATION

API has the experts that will help you manage and implement the reconfiguration of your workstation or an entire work environment. We bring the skill to help transform your existing space into one that meets tomorrow's needs.

Our project planning helps facilitate efficiency and ease, function and flow. Safety, comfort, aesthetics and day-to-day practicality are all addressed and the result is an office that works seamlessly.

API has a thorough understanding of corporate clients' cultures and practices that translates into effectively communicating and operating within that environment. Our supervisors and personnel will interpret plans and specifications, troubleshoot, and work quickly, unobtrusively, and independently, allowing our clients to focus their energies on running and managing their business with minimal interruption.

RECONFIGURATION

RELOCATION

"API has always performed not only simple tasks, but the more difficult ones on schedule and to everyone's satisfaction. I would certainly recommend them"

*Rosemary Espanol, Principal
Interiors Environments, Inc.*

RELOCATION

Moving office furniture and furniture systems to a new location is like reassembling an erector set that contains thousands of pieces: There is only one right way to piece the puzzle back together.

That's where API steps in. While most moving companies are fine for transporting furniture from Point A to Point B, very few have the expertise to reassemble it, or take the time to make it plumb and level. Our professionals plan the most efficient and rapid method to disassemble and reassemble your working environment to protect your investment.

API's relocation specialists begin by coordinating with your work schedule and your moving company, in order to relocate your office at the most convenient time possible with minimal disruption of personnel.

We work 7 days a week, 24 hours a day, if necessary, to accommodate your project needs.

So, whether your office is relocating, expanding, or simply moving across the hall, talk to API's relocation professionals about your particular installation needs.

PROJECT MANAGEMENT & COORDINATION

The assembly or disassembly of contract furniture can be a formidable and time consuming task that requires endless attention to detail. That's where API's Project Coordination team comes in – they are masters in coordinating the task of planning, scheduling, and handling the relocation of contract furniture from start to finish.

Whether moving from floor to floor, or building to building, total coordination is essential in the earliest stages of office planning.

API's professionals begin by examining the project requirements. They then review your new office layout, and plan each stage of the job with all key tradespeople.

From coordinating ceiling and carpet installers, to scheduling cleaning services and freight elevators, we arrange the sequencing of your furniture installation.

API's years of experience in scheduling, timing, and troubleshooting have proven that project coordination is absolutely crucial to the success of the entire project. So, the next time you have a furniture installation need, talk to the project management specialists at API.

"I've worked with most of the furniture installation companies in the United States and AIMM Philadelphia is one of the best"

Barry Coyle, Principal
BEC Consulting
